

RITESH YADAV

+91-8434041818 | ratohikumar@gmail.com | GitHub | Portfolio

TECHNICAL SKILLS

Programming Languages	JavaScript, TypeScript, PHP, C++, SQL, HTML5, CSS3
Frameworks & Libraries	React.js, Next.js, Node.js, Express.js, FastAPI, Redux, Context API, Tailwind CSS
E-Commerce Platforms	CS-Cart (Add-on Development, Core Hooks, Standards), OpenCart
Marketplaces & APIs	Amazon SP-API, eBay REST API, Zoho (Inventory & CRM), WooCommerce, Wix
Databases & Messaging	MySQL, PostgreSQL, MongoDB, RabbitMQ, Vector Databases
DevOps & Cloud	Git, GitHub Actions, GitLab CI/CD, Docker, Kubernetes, AWS (EC2), Linux, Postman
FinTech, AI & Concepts	Stripe (Custom Accounts, Webhooks), Razorpay, Veri*Factu Compliance, LLM Chatbots, EJS

EXPERIENCE

Webkul

Feb 2025 – Oct 2026

Software Analyst (Full-Time)

Onsite

- Developed and deployed custom connectors for **Amazon SP-API**, **eBay**, **Zoho Inventory/CRM**, and **Wix** on CS-Cart and OpenCart, automating multi-channel catalog, order, and inventory synchronization.
- Collaborated directly with international clients to gather technical requirements, deliver product demos, and implement tailored production solutions, enhancing customer satisfaction and platform adoption.
- Optimized high-volume database queries and added indexing on mapping tables, eliminating sync bottlenecks and resolving race conditions in duplicate SKU and price updates across large catalogs.
- Built background queue handlers using **RabbitMQ** with heartbeat monitoring, single-consumer locking, and memory bounds, ensuring resilient and fault-tolerant data synchronization.
- Developed the **Veri*Factu Invoice** compliance add-on for the Spanish anti-fraud tax agency following strict CS-Cart standards, and integrated **Stripe Custom Accounts** & Wallet systems with BNPL automation.
- Designed and integrated multilingual chatbots using LLMs and semantic search with vector databases, built scalable RESTful APIs, and automated E2E testing using **Playwright** with GitLab CI/CD pipelines.

Refresh Infratech Pvt. Ltd.

Oct 2022 – Apr 2023

Software Developer (Part-Time)

Onsite

- Built a QR-based restaurant ordering system allowing customers to browse live digital menus, place orders, and pay via **Stripe** directly from their table.
- Developed real-time backend workflows and order routing with **EJS** templating and Node.js/Express, deploying the platform live for automated dine-in experiences.

PROJECTS

Studynotion | React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Razorpay

May 2025

- Developed a full-stack e-learning platform where instructors create and sell courses, and students enroll, learn, and track progress with personalized dashboards.
- Integrated Razorpay with webhook verification for secure payments, implemented RESTful APIs, JWT role-based access control, and responsive UI for cross-device usability.

Shramik | Node.js, Express.js, MongoDB, EJS, Stripe API

Dec 2024

- Built an on-demand job marketplace for daily wage workers with real-time hiring, role-based access (admin, employer, worker), and responsive UI using EJS templates.
- Integrated Stripe for escrow-style secure payments, added rating/review systems for trust, and implemented RESTful APIs with MongoDB for low-latency backend operations.

EDUCATION

G.L. Bajaj Institute of Technology & Management

MCA - Master of Computer Applications — Grade: 7.4 CGPA

Greater Noida, UP, IN

Oct 2023 – Jun 2025

St. Xavier College Ranchi

B.Sc. in Information Technology — Grade: 7.0 CGPA

Ranchi, Jharkhand, IN

Oct 2020 – May 2023
